### **DETAILED ACTION**

1. Claims 1- 20 are allowed over the prior art of the record.
2. The following is an Examiner's Statement of Reasons for Allowance: The primary reason for allowance of the claims is that prior art neither teach nor fairly suggest the particular combination of the method and apparatus to measure the crushing strength of as appears in the independent claims 1, and 12. Major emphasis regarding claim 1, is being placed upon the provision comparing the initial and post crushing particle size, and regarding claim 12, is the provision of first and second motor rotating in opposing directions, in combination with other limitations of the said independent claims and their dependent ones.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure, however none show such limitations.
